Biography: I am a 24 year old highly motivated individual always ready to try new things. I've been living life on edge (freelancing) for 4 years now and not ready to quit yet. My friend always says to me after I describe my travel to gigs as "organized chaos" so it is safe to say that is something I live for. What I love most about what I do is that I love what I do. I live to travel, learn and love. My experience began working VIP programs for tours, then to festivals and now I will work any live event I can get into. Managing VIP Programs and working in Artist Relations are some of my favorite departments. I also have plenty of experience in guest services, transportation and ticketing. I see myself

being a producer of festivals/large scale live events one day and would love to work and meet people in operations and production around the world until that happens.
