Last Events Worked: Trans Pecos Fest, LouFest, Float Fest

Based In: Austin, TX

Three Event Items I Cannot Live Without: Sunscreen, Caffine, Leatherman

Social Media Links and Bio:

I have spent the last 2 years delving into the multiple facets of festivals and productions including site operations, stage management, audio engineering and hospitality. I began recording and producing audio recordings at a young age and I am a competent audio engineer as well as a musician. I studied classical guitar at Texas State University with an emphasis on composition and business. That being said, I don't mind getting my hands dirty and working hard for 16 hours straight. My largest strength is my ability to communicate effectively with tact and efficiency.
