

# Vendor Resources

In the event and festival industries, having solid vendors you can trust is very important. Below is a list of **National** and **regional (Texas)** vendors that we've all had positive experiences with, with more vendors being added regularly. Any hiring of these vendors is done at your own risk – we cannot make any promises or guarantees as to their performance for you – but they are all recommended. If you're looking for event staffing companies, [click here](#).

*Please note:* The PDF and Printer-friendly links only work for national vendors at this time. We are working to implement PDF and Printer-friendly features for regional vendors in a future update.
